The appointment of Elihu Root to be secretary of state will almost surely give satisfaction to a large majority of the people. Mr. Root is not the ablest or the place, but he is without ques-

#### THE RETURN OF JONES.

A squadron of American warships any one of which could have exterminmiral, Paul Jones. When all that is all the honor that can be done to the memory of the great sea fighter, a remarkable chapter in American history will have been finished.

After the lapse of more than a hundred years it was possible to discover and to absolutely identify the body of so thorough, so complete as to leave no room for doubt. Traces of the very disease from which Jones is known to ave died were disclosed by an au-

To Ambassador Porter the credit i due. Mr. Porter instituted the search at his own expense. He expended thousands of dollars in exploring the little cemetery, long since abandoned and built over, in which Jones' body was buried. For weeks the search went There were disappointments and discouragements, but Mr. Porter never faltered. We are called a nation of money getters; we are told ever the trouble is settled China that our sweetest music is the clink of gold, that we have no time for the finer things of life.

The story of the recent happenings in France is sufficient answer to these criticisms. Americans are often in clined to spend too much time in the pursuit of the dollar, they have worldwide commercial ambitions, but they can, on occasion, forget all these things and join in as fine a display of cure the aid of the president in colpure sentiment as any nation has ever produced.

#### AN IMPOSSIBLE SOLUTION.

A man from Ohio, Charles W. Chestnutt, proclaims the belief that intermarriage between the whites and blacks is the proper way to settle the race question. Chestnutt is at perfect liberty, so far as we are concerned, to marry a negress tomorrow. If he is already married and if he has a daughter of marriageable age we have no obtection to his giving his daughter to some negro for a wife.

We have not the doubtful pleasure of an acquaintance with this Chestnutt, but if he is like most people of his

self and his family. For our own part do not see how general intermarmything but the deterioration of both yesterday at

A COCKFIGHTING BILL.

The Cuban congress is gravely considering a bill providing for the restoration of cockfighting and requiring the managers of pits in which game cocks are pitted against one another to pay a license therefor. Some wonderfully strong arguments are advanced, not only by the advocates of the measure, but by the bill itself, in favor of its passage. For example, the bill speaks of cockfighting as "the legendary diversion of the Cuban people of t gendary diversion of the Cuban peo

pical entertainment of the farmer," nd it is declared to be necessary to dent answer to anything that may said anent the brutality of cock- ing. ing.

Kalkaska Co... Mich.. In a most interesting letter to Dr. Pierce. "I had pain in my left side and back and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough: I got so bad I had to be in bed all the time. "My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would rry Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped and I have had no more of it returning. Your medicine is the best I have taken."
